My name is Linda Rush and I have wanted to be a non-smoker for many many years now and have always failed each attempt. My girlfriend on PEI was a successful candidate so I decided to give her method a try. I flew to PEI for this treatment and was hesitant but figured if it did not work I would at least get a visit with my girlfriend to say the least. Well I have GREAT NEWS. After smoking for 46 years a pack and a half a day I have finally beat my addiction. Unbelievably I have NO cravings and am now proud to say I am a NON SMOKER! My voice is no longer raspy, my fingers are no longer yellow from nicotine and I do not feel like a criminal anymore as I used to have to leave the room and go outside to smoke. The Laser method was the easiest to do and in as little as one hour I became a NON SMOKER! This is the best feeling in the world to no longer be held hostage by the tobacco companies. I now look forward to enjoying my senior years that I so nearly lost due to smoking. I am FREE and I feel GREAT! Thank you Laser Ease for showing me the successful way to quit smoking. I absolutely love your entire program! ... *Linda Rush, North Bay, Ontario*

"I have tried absolutely everything under the sun. Whatever is out there I have tried it. Anyone who wants to quit smoking. THIS WORKS!" ... *Bobby Wilson, Charlottetown PE*

"It is fantastic, it works! I was chewing a can of tobacco a day which equals 3 packs of cigarettes. I could not go even one hour without chewing. When I sat in the chair at Laser Ease, I really did not think it would work. If I can do it anyone can do it!" ...*Scott Campbell, Borden PE*

Linda and Natalie,

I just want to thank you again! It has been 3 months since I quit smoking. With the help of the laser treatment quitting smoking didn't feel like "hard work" - it just felt right. I couldn't imagine being a non-smoker without your help. Now I can't imagine I ever smoked in the first place. I am recommending the treatment to all the smokers I know!

Cheers! ...*Matthew MacPhail, Charlottetown PE*

My dad works at Cavendish Farms and quit smoking with Laser Ease. He is still not smoking and it has been over 5 months. He tells everyone who smokes to go to Laser Ease. He has tried many other methods and never went this long. I am very proud of my dad as he kicked his habit for himself and for me too! ...*Megan Parker, Kensington*

"I smoked for 30 years. Two packs a day. I tried the patch, hypnosis, Zyban, nicorette gum and nothing worked. I thought I would try Laser Ease because of its high success rate and I'm happy to report it worked for me. I don't know how it works but it does. I've been smoke free now since December 2010 and I'm sure I will never smoke again.".....*Len Cahill*

"I had been a smoker for almost 33 years, starting at 14 years old, and a very heavy one. Knowing my health was deteriorating as a result, it was either quit now or die within the year. I quit January 14, 2009 and can't believe how good I feel. Laser Ease is the best option I know of to assist with quitting smoking and if Alex Docherty can quit, ANYONE can quit!"

"The Best Thing I Could Have Done For My Health – Wish I Would Have Done It A Decade Ago!! It seems like a dream or magic but, yes, you can quit smoking without the cravings and never look back. I have not had a cigarette in 6 months and I have not cared to. If someone had told me how easy it was I might not have believed them – so try it – what have you got to lose!".....*Kay S Doherty, Smoker for 30 years now a Happy Non-Smoker*
